SECRETARY OF STATE

We are pleased to share the latest compilation of Illinois public library statistical information with you and trust that the Illinois public librarians, trustees and others will find it useful. The statistical summary provides an important overview on the status of Illinois public libraries--their collections, use, resource sharing, expenditures and funding. However, in the last few years, we have increased our efforts to compile and to release data on several topics of interest such as the compensation of librarians and the use of automation in Illinois public libraries.

Illinois public libraries are required by law to report their activities annually to the Illinois State Library. This statistical volume represents an ongoing cooperative effort between the Illinois State Library and the Library Research Center, Graduate School of Library and Information Science, University of Illinois at Urbana-Champaign. Under a project funded through the Library Services and Construction Act (LSCA) from the Illinois State Library, the Library Research Center staff compiles, analyzes and produces a printed compilation for the State Library of the data reported by the state's public libraries.

This Library Research Center report is a summary of the data reported by public libraries for F.Y. 1992-1993. Of particular note is a greatly expanded executive summary which includes comparative librarians' salaries and a status report on automation.

In using this new edition, I hope that you keep in mind the value of our public libraries to society while reviewing their record of progress.

Sincerely,

George H Ryan

PREFACE

For over a decade, the Library Research Center has compiled and published public library statistical data for the Illinois State Library. We are proud to release this edition of *Illinois Public Library Statistics: A Guide for Librarians and Trustees, 1992-1993*. We hope this volume will be a useful tool for use in library development and management.

This year we have again included a condensed summary of the statistical status of public libraries in Illinois. We have attempted to show some of the statistics which will be most relevant to library professionals when evaluating their own library service. We are also including a summary of some of the data collected on the Per Capita and Equalization Aid forms as well as summaries of the "Librarian Salary Report" and the "Library Automation in Illinois 1992-1993" prepared by the Library Research Center for the Illinois State Library.

Many people contributed to this work. Illinois State Library Director, Bridget Lamont and other ISL personnel including Stanley Adams and Patricia Norris have given guidance and direction for the project.

Throughout this fiscal year many LRC staff worked diligently and as a team to complete this project. I would like to thank Leigh Estabrook, Dean of the Graduate School of Library and Information Science Department and Director of the Library Research Center for her leadership and commitment to this project. Many hours were spent in consultation with the Assistant Director of the Library Research Center, Edward Lakner who oversaw all facets of this project and provided advise and guidance throughout the year. Other professional staff contributing to the successful completion of this project include our computer programmer, John Walder, who was responsible for the production of the statistical tables and other technical tasks. Polly Jones provided necessary clerical support. A special thanks to our University of Illinois student assistants, Jo-Yu Chiao, Dan Kaplan, Elli Kaplan, Daniel Kim, Pam Lowrey, Steve Mandrgoc, Shawnte Massey, and Sylvie Temperley who, among many other related tasks, spent countless hours coding and entering data from IPLAR forms.

Statewide Statistical Summary

STATEWIDE STATISTICAL SUMMARY

Illinois Public Libraries
Fiscal Year 1992-1993

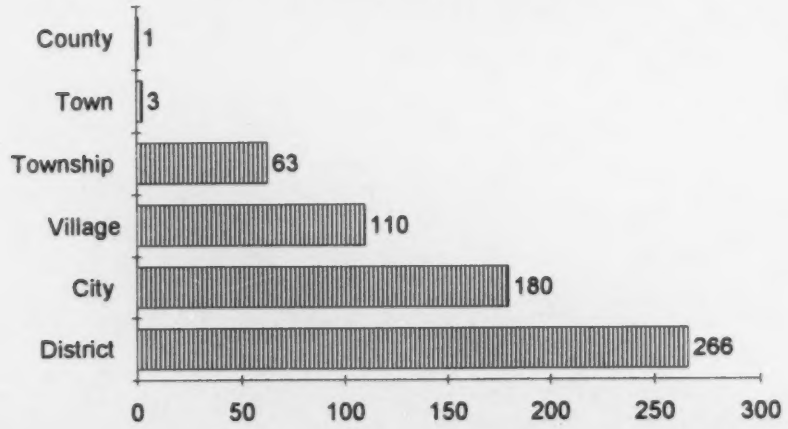
In the 1993 fiscal year (ending between July 1, 1992 and June 30, 1993) there were 623 public libraries in Illinois, of which, 616 submitted annual report forms. The following pages summarize statistics for these 616 Illinois public libraries. The National Federal-State Cooperative System (FSCS) public library data is used to make comparisons and show how Illinois ranks nationally. The most current FSCS data available from the National Center for Education Statistics is the FSCS 1992 data set[1].

Since 1983, the population served by Illinois public libraries has increased by over a half million to 10.1 million in 1993. In the same period, the number of resident borrower cards increased by 51 percent to 5.9 million.

PUBLIC LIBRARY FACILITIES

During the last ten years, many public libraries in Illinois have converted to district status or have annexed additional service areas. Conversion to district status or annexation of additional service area allows a library to serve a larger population. The chart below shows all 623 public libraries in Illinois for 1993 classified by the six administrative types: district, city, village, township, town, and county.

Types of Public Libraries in Illinois



In addition to the 616 reporting public libraries, there were 149 branch libraries and 28 bookmobiles reported in Illinois during 1993. Compared to 1983, the overall number of branch libraries was unchanged, though the number of libraries reporting at least one branch library increased from 31 to 38. Four fewer bookmobiles were reported in 1993 than in 1983; correspondingly, libraries reporting at least one bookmobile decreased from 28 to 25.

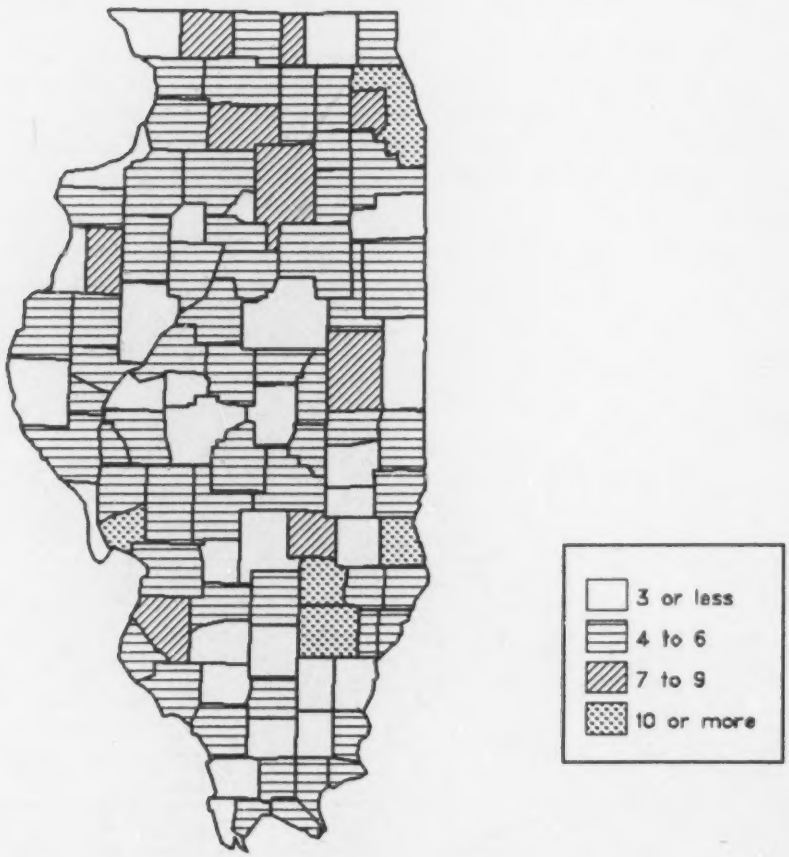
PUBLIC LIBRARY ATTENDANCE

For the last three years, the Illinois State Library has been tracking public library attendance. In 1993 annual attendance for all Illinois public libraries was reported at 53.6 million, an increase of 1.7 million since 1991. The number of visits per capita increased slightly from 5.1 in 1991 to 5.3 in 1993. Nationally, Illinois ranks sixth in the number of library visits per capita.

When libraries are grouped by size of population served, the largest number of visits per capita occurs at libraries serving populations of between 1,500 and 2,999, where each resident visits the library an average of 7 times a year. The smallest number of visits per capita occurs at libraries serving populations of over 250,000, where each resident visits the library an average of 3 times a year.

The map below shows the number of visits per capita for libraries located in that county. While over one half of all Illinois counties have residents visiting their library four to six times a year, nine percent of counties have residents visiting their library seven to nine times a year and five percent visit their library 10 or more times a year.

Library Visits Per Capita by County



PUBLIC LIBRARY COLLECTIONS

In 1993, public libraries in Illinois held a total of just over 34 million volumes. This represents 3.4 books for each person served by an Illinois public library. The national average is 2.7 books for each person served by a public library.

Between 1983 and 1993, the number of volumes added annually per capita increased slightly (from .19 volumes in 1983 to .21 volumes in 1993). In the same period, the total number of video tapes held by Illinois public libraries increased more than tenfold from 40,290 video tapes to 420,384. Audio holdings correspondingly increased by 60 percent to a total of 1.4 million.

The number of periodicals received by Illinois public libraries has grown from 71,131 in 1983 to a total of 115,335 in 1993, an increase of 62 percent. In 1983, public libraries received on average 122 periodicals. By 1993 that figure had increased to an average of 187 periodicals.

PUBLIC LIBRARY CIRCULATION

Circulation in total, circulation per capita, and circulation per full-time equivalent (FTE) librarian continued to grow in 1993. In the past year alone, total circulation in Illinois public libraries increased 1.1 million to reach a total of almost 77 million items. The 1993 circulation per FTE librarian (based on a 40 hour work week) was 30,847, compared to 16,734 in 1983.

The table below shows the average circulation per capita for Illinois public libraries grouped by size of population served for both 1983 and 1993. Circulation per capita in libraries serving a population of between 75,000 and 249,999 has increased the most (50%) in the last ten years. The highest circulation per capita occurs in libraries serving a population of between 50,000 and 74,999; the lowest occurs at libraries serving a population of 250,000 or more.

INTERLIBRARY LOANS

The Illinois State Library has been compiling statistics on interlibrary loans for the past three years. In 1993, a total of 660,477 interlibrary loans were provided, a 26 percent increase over the 1991 total of 523,304.

The number of interlibrary loans received in 1993 was 736,892, a 9 percent increase from the 1991 total of 675,248. Nationally, Illinois ranks among the top 10 states for the number of interlibrary loans provided and received. The table below shows the number of interlibrary loans per 1,000 persons and the national rank for selected Midwest states.

Midwest States Interlibrary Loans per 1,000 Population and National Rank

Wisconsin	101.7 (1)	111.8 (1)

REFERENCE QUESTIONS

In 1993 Illinois public libraries reported a total of 13.2 million reference questions, a 34 percent increase over the 1988 figure of 9.8 million. Since 1988, adult reference questions have increased by 31 percent while children's reference questions, reported by all librarians, have increased by 34 percent. The number of reference questions per capita was 1.3 in 1993 compared to 1.0 in 1988. Nationally, Illinois ranks seventh in the number of reference questions asked per capita. The chart below shows the number of reference questions asked per capita in selected Midwest states.

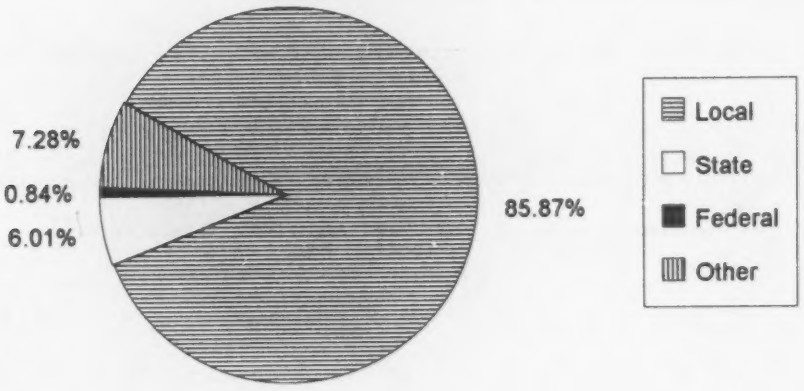
PUBLIC LIBRARY FUNDING

Local tax income, usually collected from property taxes, has consistently been the largest contributor to public library funding. In 1993 local governments were responsible for 86 percent of funding for public libraries. In 1983 this figure was 81 percent. The chart below shows the percentage of funding from the four types of funding: local, state, federal, and other.

Library Funding
FY 93

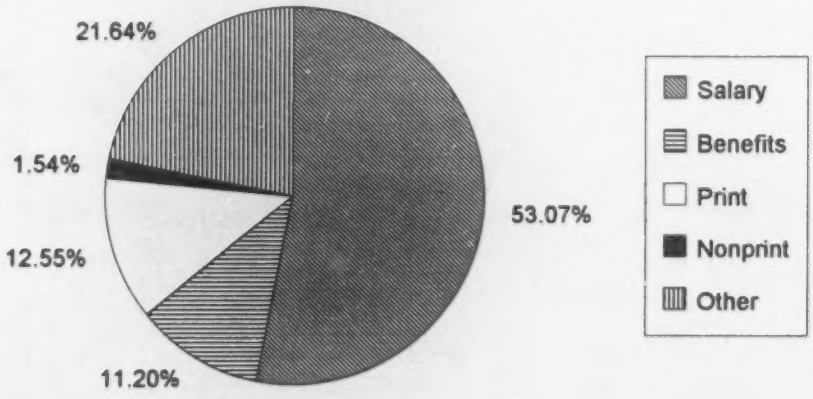


PUBLIC LIBRARY EXPENDITURES

Total public library expenditures in 1993 were $335,446,278 compared to $133,648,539 in 1983. This represents a 251 percent increase in the last ten years.

Total operating expenditures in 1993 were $262,406,577. The largest operating expenditure category, salary, accounted for 53 percent of total operating expenditures in 1993. The smallest operating expenditure category, nonprint materials, accounted for 1.5 percent.

Library Operating Expenditures
FY 93



The per capita figures below show that capital expenses have undergone the largest percentage increase per capita, 430 percent, in the last ten years. Staff expenditures has increased operating expenditures the most, 116 percent. Collection development have increased the least, 87 percent.

Library Expenditures Per Capita
FY 83 and FY 93

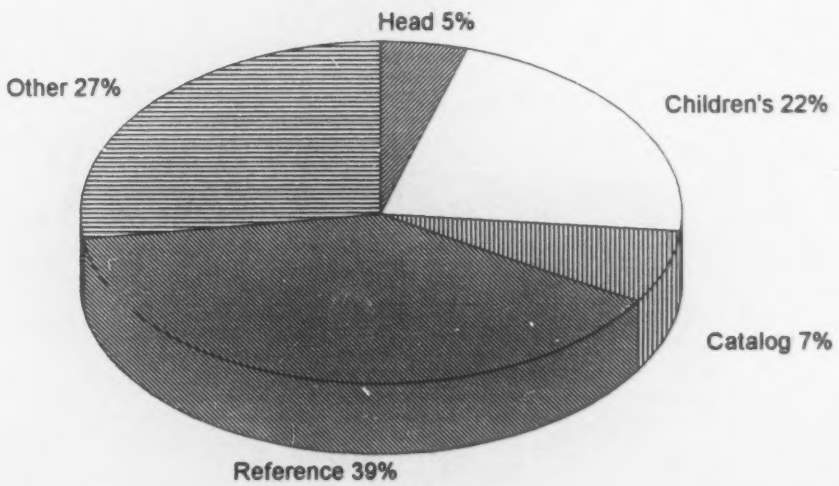
Type of Expenditure	FY 83	FY 93	Percent Change
Staff (salary and benefits)	$7.71	$16.64	116%
Collection Development	$1.95	$3.65	87%
Other Expenses	$2.75	$5.60	104%
Total Operating Expenditures	$12.41	$25.89	109%
Capital Expenses	$1.36	$7.21	430%
Total Expenditures	$13.89	$33.10	138%

PUBLIC LIBRARY STAFF

In 1993 a total of 6,138 full-time equivalent (FTE) staff were employed by Illinois public libraries, excluding maintenance workers, an increase of 812 (15%) FTE staff positions since 1988.

Over the last ten years, the number of staff librarians has increased 12 percent and the percent of librarians with an ALA accredited MLS degree has increased 20 percent. Of the 2,168 FTE (2,752 persons) reported librarians in 1993, 57 percent hold an ALA accredited MLS degree as compared to 53 percent in 1988. Nationally, 68 percent of FTE librarians hold an ALA accredited MLS degree. The chart below shows the percentage of FTE staff librarians working in each type of position in Illinois.

Illinois Public FTE Staff Librarians FY 93
by Type of Librarian



PUBLIC LIBRARIAN SALARIES

The table below shows the average minimum and maximum hourly rates for the four librarian positions in the Illinois Public Library Annual Report: children's, catalog, reference and other. Since many librarians are employed on a part-time basis, the salary figures are expressed in terms of hourly rates. Those librarians falling into the category of other earn both the least minimum average rate and the least maximum hourly rate.

Minimum and Maximum Salaries of Illinois Public Librarians FY 93

Type of Librarian	Average Minimum Hourly Rate	Average Maximum Hourly Rate
Children's Librarian	$10.26	$11.74
Catalog Librarian	$11.79	$12.48
Reference Librarian	$10.84	$13.64
All other types	$8.63	$10.33

As shown in the chart below, for head librarians, as the level of education increases the hourly rate increases. Based on level of education and sex only, a wage gap exists between men and women. The fact that the majority (85%) of men employed as head librarian have an MLS, ALA accredited degree helps to explain the total gap between men and women. Other variables, such as years of experience, age, and number of persons supervised, may also account for some of this wage gap.

FULL-TIME ILLINOIS PUBLIC LIBRARIAN SALARY REPORT: FY 91-92

This year the Library Research Center prepared the "Librarian Salary Report"[2] for the Illinois State Library. This report presented data on the salaries of all full-time (at least a 37.5 hour work week) public librarians (head, reference, children's, and catalog) in the state of Illinois[3], except those employed by the Chicago Public Library. Comparisons were also made between the salaries of Illinois librarians holding an ALA accredited MLS degree and salaries of the equivalent librarian in the Great Lakes Region[4] and nationally[4]. Some of the major findings were:

- Of the 1,151 librarians employed full-time in the Illinois public libraries, 85 percent are female.
- Nearly 27 percent of head librarians are men, almost twice their representation among all librarians.
- Men compose only 8 percent of all full-time catalog librarians and only 3 percent of all children's librarians.
- Head librarians in Illinois earn the highest average annual salary, exceeding by 30 percent that of children's librarians, who earn the lowest average annual salary.
- In general, the average annual salary of Illinois public librarians increases with the level of education and the size of population served by the library.
- Sixty-six percent of Illinois librarians hold an ALA accredited MLS degree.
- Female head librarians holding an ALA accredited MLS degree earn an average of 19 percent ($8,553) less than male head librarians holding the same degree.
- Most types of librarian in Illinois averaged less annual salary than the Great Lakes Region average or national average for each corresponding type of librarian. The chart below shows the average annual salary of children's, catalog, reference, and head librarians in Illinois, the Great Lakes region, and Nationally.

AUTOMATION

The 1992-93 Illinois Public Library Annual Report form fielded supplemental items concerning prevalence of computers in libraries, activities for which those computers are used, and proportion of access to on-line bibliographic databases. In 1993, 466 (75.6 percent) of public libraries in Illinois reported having at least one microcomputer, with IBM-compatibility reported in 85.4 percent of these cases. Relatively few public libraries in Illinois (regardless of administrative type or size of population served) are equipped with minicomputers (6.0 percent) or main frame computers (4.9 percent).

The tables below show computer-equipped libraries classified by administrative type and by size of population served: The proportion within each library type in 1993 who reported ownership of at least one microcomputer include: district libraries (81.6 percent), city libraries (77.2 percent), village libraries (70.4 percent), and township libraries (54.0 percent).

Prevalence of microcomputers in Illinois public libraries increases with the size of population served. Computer presence is lowest (51.4 percent) in libraries serving a population of less than 1,500; it is highest (100 percent) libraries serving a population of 75,000 or more.

Over 250,000	100.0	100.0	100.0	1
All libraries	75.6	6.0	4.9	616

Items of equipment to assist use of computers, such as printers or computer modems, occur among Illinois public libraries in the same proportion as do microcomputers. Over three-fourths (77.3 percent) of all libraries have a computer printer; more than two thirds (70.0 percent) of all libraries have a computer modem. A transmission capacity of 2,400 baud is most often indicated (64.5 percent of modem-equipped libraries), followed by 9,600 baud (23.5 percent), and 1,200 baud (7.8 percent).

Reasons for using computers are reported in the table below for the 488 Illinois public libraries who reported ownership of a micro-, mini-, or mainframe computer. Among these libraries, computers are used most often for word processing (79.7 percent). Other frequent activities include processing of interlibrary loan transactions (70.9 percent), cataloging (68.2 percent) and compiling of library statistics (61.3 percent). Libraries use computers least often for acquisitions (32.6 percent), access to the serials union list (17.4 percent), and for serials control (14.3 percent).

Illinois public libraries make use of a variety of online databases and services. Most common is ILLINET Online (IO), used by 46.4 percent of public libraries. Next mentioned were SILO (20.8 percent), OCLC (13.8 percent), and DIALOG (11.7 percent). Only 5.0 percent of public libraries in Illinois reported access to the Internet.

In 1993, 248 (40.3 percent) of public libraries in Illinois reported having a computerized circulation system. The prevalence of computerized circulation increases with size of population served. Computerized circulation is lowest (2.7 percent) in libraries serving a population of less than 1,500; it is highest (100 percent) in libraries serving a population of 75,000 or more. Of libraries who have no computerized circulation, only 15.2 percent said they planned to switch to such a system within one year.

In 1993, 49.8 percent of public libraries in Illinois reported that their catalog records were part of an electronic catalog. Once again, prevalence increases with size of population served. The occurrence of electronic cataloging is lowest (9.9 percent) in libraries serving a population of less than 1,500; it is highest (100 percent) in libraries that serve a population of 75,000 or more. Most (83.4 percent of) libraries who have an electronic catalog are part of a regional library system; only a

small proportion (17.6 percent) share in another (i.e. non-regional) type of electronic catalog system; only 16.9 percent reported that their electronic catalog was a stand alone, in-house system. In most of these libraries, access to the electronic catalog is done on-line rather than via CD-ROM.

Key computer-related characteristics of Illinois public libraries classified by size of population served are summarized in the table below:

NATIONAL RANKINGS OF ILLINOIS PUBLIC LIBRARIES

For the past several years the National Center for Education Statistics in cooperation with the U.S. National Commission on Libraries and Information Science has been collecting public library data through the Federal-State Cooperative System (FSCS). Through this program State Data Coodinators submit data to the FSCS. The following rankings comparisons are based on per capita figures from FY 1991 and FY 1992.

Illinois Public Library Statistics

INTRODUCTION

This publication, ***Illinois Public Library Statistics: A Guide for Librarians and Trustees, 1992-93,*** presents a statistical view of Illinois Public Libraries during the 1992-93 fiscal year. The information is derived from the data provided by librarians and library directors on the 1992-93 Illinois Public Library Annual Report forms.

Statistics should be viewed by librarians and trustees as tools and not as an end in itself. The value of the statistics published here is that they can be used both internally and externally by the library's administration. Internally, a library's individual statistics can be compared to previous years' statistics to track performance, assess the success of the library's chosen goals, set new service and management objectives, or keep the library headed in its chosen direction. Externally, a library's individual statistics can be compared to other libraries of similar size and environment to determine whether the library is above or below the average for its system, to justify library actions and budgets, to plan for library service, and to evaluate the library's progress.

Statistical Views of Illinois Public Libraries

Two statistical pictures of Illinois public libraries are presented:

Section 1: **Illinois Public Libraries by Location**
This section presents resources and financial data for each public library submitting an Illinois Public Library Annual Report for fiscal year 1992-93. Table 1.1 and Table 1.2 present selected aspects of library operations in summary form for the 593 libraries in Illinois which had a 12 month fiscal year and did not contract for all services with another library.

Section 2: **Illinois Public Libraries Grouped by System**
This section presents resource and financial data for each library submitting an Illinois Public Library Annual Report for fiscal year 1992-93 by system. Table 2.1 and Table 2.2 present selected aspects of library operations in summary form for each library system. Only those libraries which had a 12 month fiscal year and did not contract for all services with another library are included in these tables.

ILLINOIS PUBLIC LIBRARIES BY LOCATION

Resource and financial data for each reporting library are listed in this section. These statistics are 1992-93 totals and offer an overview of individual libraries. These statistics provide libraries with basic information on the question, "where are we?" This is the baseline information needed by library administrators and trustees in planning and managing library services. These statistics provide easy comparison with similarly-sized communities or neighboring libraries.

Section 1 table data, except for tax information, were obtained from the Illinois Annual Report forms submitted by 616 of the 623 public libraries. The libraries are listed alphabetically by location, with the legal name used as a subheading. The tax information was supplied by the Illinois Department of Revenue and is reported for all 623 libraries. A cross-reference listing of libraries is included in Appendix A to match the legal name with its corresponding location. Appendix B contains definitions and acronyms for the variables used with computing statistics.

Table 1.1, "Averages and Percentiles of Statistics of Public Libraries", and Table 1.2, "Ratios and Percentages Derived from Statistics of Public Libraries", present selected aspects of library operations in summary form for the 593 libraries which had a 12 month fiscal year, submitted an Illinois Public Library Annual Report, and did not contract for all services with another library.

FOOTNOTES
1992-1993

Footnotes to the data file are chosen primarily on the basis of a library's self-reported anomalies. By grouping the footnotes into categories and listing those libraries reporting similar information under each heading, it should be easier to retrieve the information for a specific library.

The libraries are listed by location, and then by legal name of the library if there is more than one library located in that city. The location listing is determined by the mailing address of the library.

ILLINOIS PUBLIC LIBRARIES GROUPED BY SYSTEM

This section groups public libraries by their membership in one of the seventeen multi-type systems in Illinois. The statistics presented for each system are derived from the data in Section 1.

Section 2 tables include the following library systems:

Bur Oak Library System
Chicago Library System
Corn Belt Library System
Dupage Library System
Great River Library System
Illinois Valley Library System
Kaskaskia Library System
Lewis and Clark Library System
Lincoln Trail Libraries System
North Suburban Library System
Northern Illinois Library System
River Bend Library System
Rolling Prairie Library System
Shawnee Library System
Starved Rock Library System
Suburban Library System
Western Illinois Library System

For each system, two tables are provided. One lists the resources of each library in that system. The other lists the financial data of each library in that system.

Table 2.1, "Averages and Percentiles of Statistics of Public Libraries by Library System", and Table 2.2, "Ratios and Percentages Derived from Statistics of Public Libraries by Library System", present selected aspects of library operations in summary form for each library system. Only those libraries which had a 12 month fiscal year, submitted an Illinois Public Library Annual Report, and did not contract for all services with another library are included in these tables.

NOTE: During the 1992-93 fiscal year, the Cumberland Library System was dissolved. Its member libraries joined the Shawnee Library System. Figures in this section will be changing due to further system consolidations resulting in library closings. Please check with individual systems to confirm membership size.

APPENDIX B

Definitions and Acronyms

These definitions and acronyms are for variables included in the statistics listings for tables in this publication. The source for these statistics, unless otherwise indicated, is the 1992-93 Illinois Public Library Annual Report form (IPLAR). Other sources of data include the 1990 Census (CENSUS), the 1991 Illinois Department of Revenue tax information tape (TAPE), and the Illinois State Library (ISL). The definitions are listed in alphabetical order.

ASSD VAL PER CAP: Equalized Assessed valuation per capita. The assessed valuation of the area served per capita, in dollars. (TAPE, CENSUS, ISL)

ATTENDANCE: Total number of persons entering the library, including persons attending activities and those persons requiring no staff service. Represents an actual annual count, if available; or an annual estimate calculated from a count taken during a typical week.

AUDIOVISUAL EXPENDITURES: Expenditures for audiovisual and all other non-print materials.

BOOK STOCK ADDED: Total number of book volumes added.

BOOK STOCK HELD: Total number of book volumes held at the end of the year.

EAV: Equalized assessed valuation.

EQUALIZED ASSESSED VALUATION: Equalized assessed valuation is the figure of real property reported in thousands of dollars. Information is taken from the abstracts on file with the Illinois Department of Revenue for the 1991 assessment year. For public libraries whose service area is in more than one county, a separate assessment and tax rate is shown for each county. (TAPE)

EXPENDITURES FOR WAGES AND SALARIES: Included in this figure are wages and salaries paid to all staff, except maintenance personnel and fringe benefits such as the library's contribution for insurance, social security, and the Illinois Municipal Retirement Fund.

FILMS: Included in this figure are motion picture films, videotapes, videocassettes, and video discs.

FRINGE BENEFITS: Fringe benefits paid by the library such as insurance, IMRF, social security, etc.

FSCS: Federal-State Cooperative System for Public Library Data. Collect annual public library statistics from each state. Supported by the U.S. National Commission on Libraries and Information Science and the National Center for Education Statistics.

FTE : Full-time equivalent staff employees, excluding maintenance staff, based on a 40 hour work week.

FTE PER 1000 POP: Full-time equivalent, based on a 40 hour work week, per 1,000 population. The number of full-time equivalent staff, excluding building maintenance staff, per 1,000 population. (CENSUS, ISL)

HOURS OPEN PER WEEK: The number of hours the central library was open during a typical week in October 1992.

INTERLIBRARY LOANS: Materials borrowed from or to other libraries.

ISL: Illinois State Library, Springfield, Illinois.

LRC: Library Research Center, Graduate School of Library and Information Science at the University of Illinois, Urbana-Champaign.

LIBRARY MATERIALS EXPENDITURES: Expenditures for all library materials.

LOCAL GOVERNMENT RECEIPTS: The amount of revenue received by the library from local government sources during the fiscal year. This amount does not include a working balance from the previous year, income from tax anticipation warrants, revenue sharing, proceeds of a bond issue, or the monetary value of services provided free by the local government (e.g., audit tax, social security tax and working cash fund tax). This figure includes income for the year in which the money is received.

MAT EXP PER CAP: Materials expenditures per capita. Expenditures per capita for library materials, in dollars. (CENSUS, ISL)

MLS: Master's Degree in Library Science.

MLS % OF TOTAL STAFF: Percentage of total staff holding an MLS. Hours per week worked by staff holding a library degree at the master's level as a percentage of total FTE hours per week, not including building maintenance staff.

NONRESIDENT FEE: The nonresident fee shown is the fee charged per family per year for use of the library. Exceptions are indicated by a footnote.

OPER EXP PER CAP: Operating expenditures per capita. Total operating expenditures per capita, in dollars. (CENSUS, ISL)

OTHER OPERATING EXPENDITURES: Operating expenditures, other than expenditures for wages and library materials, as a percentage of total operating expenditures.

PER CAPITA: Refers to any amount divided by the population of the library's service area. It is defined as "of, by, or for each individual".

PERCENTAGE (%) ADULT TRAN: Percentage of adult transactions. This is the circulation of adult materials as a percentage of the total circulation.

PERCENTAGE (%) LIB MAT: Percentage of library materials. Expenditures for library materials as a percentage of total operating expenditures.

PERCENTAGE (%) OTHER EXP: Percentage of other expenditures. Operating expenditures, other than expenditures for wages and library materials, as a percentage of total operating expenditures.

PERCENTAGE (%) VOLS ADDED: Percentage of volumes added. The number of book volumes added as a percentage of the number of book volumes held at the end of the year.

PERCENTAGE (%) WAGES: Percentage of wages. Operating expenditures for wages, salaries and fringe benefits for paid staff, not including building maintenance staff, as a percentage of total operating expenditures.

PERIODICAL TITLES CURRENTLY RECEIVED: Number of periodical titles currently received.

POPULATION SERVED: The population according to the latest federal census for the political subdivisions in the area served. (CENSUS)

PRINT EXPENDITURES: Expenditures for books, periodicals, microforms, and other printed materials.

RECIPROCAL BORROWING: Materials lent directly to cardholders from other libraries.

RECORDINGS: Included in this figure are records, tapes, cassettes, compact discs, etc.

REFERENCE QUESTIONS: A question which requires the use of books, periodicals or other resources such as index tools, the library catalog, online data bases or people outside the library.

REGISTERED BORROWERS: Residents who have registered with the library to have borrowing privileges.

SAL HEAD LIBR: Salary of head librarian. Annual salary of the head librarian, as of the last day of the FY 1992/93. When an hourly wage was reported rather than an annual salary, the annual salary was calculated by multiplying the hourly wage times the number of hours worked per week times 52.

TAX RATE: The tax rate reported for all types of libraries is for general library use only and may not include rates levied by libraries for a variety of special purposes (e.g., social security or worker's compensation). Tax rates should be interpreted as follows: a tax rate of 0.12 is equal to 12 cents per $100 of assessed valuation. Information is taken from the abstracts on file with the Illinois Department of Revenue for the 1991 assessment year. (TAPE)

TOTAL EXPENDITURES: Total operating expenditures plus capital outlay (for sites, buildings, construction or remodeling, and purchase of vehicles, debt retirement and other major fixed assets).

TOTAL OPERATING EXPENDITURES: Expenditures for wages, salaries, and fringe benefits for all employees, for library materials, for supplies, for binding and rebinding, for plant operation and maintenance, and for all other current operating costs.

TOTAL RECEIPTS: The total amount of money received by the library from all sources during the fiscal year, including state aid, revenue sharing, receipts for capital expenditures, gifts, etc. This does not include the working balance from the previous year, income from tax anticipations warrants, or the monetary value of services provided by the local government. Excluded from this figure is income (e.g., endowment monies) given directly to the Friends of the Library group instead of the library.

TOTAL STAFF IN FTE: Full-Time Equivalence is figured on the basis of a 40-hour week. Included in this figure are professional staff, technical and clerical employees, and pages. Excluded from this figure are maintenance staff, persons not paid by the library, and vacant positions.

TOTAL TRANSACTIONS: The total direct circulation of all materials to library users. This figure includes both interlibrary loans received from other libraries and reciprocal borrowing.

TRANS PER CAP: Transactions per capita. The number of circulation transactions per capita for the population served. (CENSUS, ISL)

TRAN PER FTE: Transactions per paid full-time equivalent staff. The number of circulation transactions per paid, full-time equivalent staff, excluding building maintenance staff, based on a 40-hour work week.

TRAN PER HOUR OPEN: Transactions per hour open. The number of circulation transactions per hour the central library was open. This is found by dividing the total number of circulation transactions for the year by 52 times the number of hours open during a typical week in October 1992.

TRAN PER ITEM HELD: Transactions per item held. The number of circulation transactions per item in the collection, including books, films, video materials and audio recordings.

VOLS ADDED: The number of book volumes added during the fiscal year.

VOLS HELD: The number of book volumes held by the library.

VOLS ADDED PER CAP: Volumes added per capita. The number of book volumes added per capita. (CENSUS, ISL)

VOLS HELD PER CAP: Volumes held per capita. The number of book volumes held per capita. (CENSUS, ISL)

WAGES AND SALARIES: Total expenditures for wages, salaries, and fringe benefits of all staff employees including maintenance staff.

ILLINOIS STATE LIBRARY, SPRINGFIELD, IL 62701-1796
PUBLIC LIBRARY ANNUAL REPORT
1992-1993

Every public library in Illinois is required by law (75 **Illinois Compiled Statutes (ILCS)** 5/4-10, and elsewhere) to file this annual report with the State Library. The purpose of this report is to obtain and publish data on the resources and services of all Illinois public libraries for use by all concerned. Each library is asked to file this report with its system headquarters **AS SOON AS POSSIBLE UPON (AND BY NO LATER THAN 30 DAYS AFTER)** completion of its fiscal year ending between July 1, 1992, and June 30, 1993. Please complete and return this form promptly. (By law, public library districts have until Oct. 1 to file this report; however, it would be appreciated if the form is filed by Aug. 1.) Every public library district should send the State Library a copy of the certified audit of its accounts within 6 months of the close of the fiscal year. That document can be sent to the State Library later.

Please do not leave any item blank. Enter "0" if the appropriate entry for an item is zero or "none." Enter "N.A." if an item does not apply to your library. If an exact figure is not available for a particular item, but it is known that the amount is greater than zero, enter an estimate of the amount. Type your responses or print in black ink. To help prevent mistakes in assembling photocopies of several different libraries' reports, please write the name of your library in the line provided in the right hand margin of pages 1-8.
